

Elevate your jewelry collection with our exquisitely crafted men's wedding ring, made from 100% pure tantalum. This distinctive band features an 8mm substantial dome profile, expertly finished with a sophisticated contrast of a matte body and a high-polished center dome. Renowned for its exceptional durability, hypoallergenic properties, and unique gun-metal gray hue, tantalum offers a premium alternative to traditional metals, appealing to modern customers seeking luxury and comfort.

We specialize in B2B partnerships, providing comprehensive OEM and ODM services. Tailor this design to your brand's vision—adjust widths, finishes, or add engravings. Our reliable factory is equipped for scalable production, ensuring consistent quality and on-time delivery for bulk wholesale orders. Partner with us to supply a high-value, contemporary ring that enhances your product lineup and drives customer satisfaction.

Item Number: TAR-066

Material: Pure Tantalum

Width: 8mm

Thickness: 1.8mm

Size: Can make any size you need

Finish: Polished and hammered

Shape pattern: Domed

Plating: No

Inlay: No

Main Stone: No

Design: Customized Styles

MOQ: 500mm per size(different styles can be mixed)

OEM/ODM: Warmly Welcomed

Quality: High-grade

We are an OEM [Tantalum Ring](#) factory. All details can modify according to customer's request.

Tantalum is hypoallergenic, so it's a great option for someone with metal allergies or sensitive skin. With a hardness of 6.5 on the Mohs scale, it is very scratch-resistant. Tantalum wedding bands are ideal for those with an active lifestyle since they are extremely durable.

When considering tantalum vs. tungsten, the biggest difference comes down to hardness. Tungsten has that natural gunmetal color, but it is not as heavy or scratch-resistant as tantalum; whereas tantalum is shatter-resistant, standing up to whatever you put it up against, tungsten is shatterproof.

Tantalum is a scarce and highly valued metal compared to Titanium, and this is somewhat reflected in its price. They may be more costly than Titanium but are less expensive than platinum. Tantalum rings are normally priced midway between industrial metals and the precious metals.

Pure Tantalum Ring

content of tantalum is above 99%.

Tantalum Alloy

Content of tantalum alloy is about 87%.

We can make different finishes on tantalum rings, such as sandblasted tantalum ring, cross satin brush tantalum ring, high polished tantalum ring, matte finish tantalum ring, satin brush tantalum ring, hammered tantalum ring, wire brushed tantalum ring etc.
