CEB0003 is a high tech pink ceramic bracelet with abalone shell inlay.

Zirconia ceramics is a new type of high-tech ceramics, it is made under extremely high temperature and high pressure environment. It has a hard texture, can withstand high temperatures, has a unique gem-like luster and transparent texture, and will never wear and fade. In addition to high strength, hardness, high temperature resistance, acid and alkali corrosion resistance and high chemical stability, it also has the characteristics of scratch resistance and wear resistance, no signal shielding, and excellent heat dissipation performance. At the same time, it has strong processability and good appearance effect.

High-precision ceramics and precious metal alloy powders are mixed and fired, and after several precise and strict procedures and multiple machine polishing and polishing, they are finally integrated into the jewelry design. This ceramic is not only light and wear-resistant, but also has anti-sensitivity properties and is comfortable to wear. It is one of the most fashionable jewelry materials at the moment, and is favored by major jewelry brands.

**We are an [China High-tech Ceramic Bracelet Manufacture](#). All details can modify according to customer's request.**

We can make ceramic bracelets in many colors. For example, black ceramic bracelet, white ceramic bracelet, [blue ceramic bracelet](#), pink ceramic bracelet etc.

Ceramic bracelet can be matched with different elements. We usually put high power Magnet Stone, Germanium, Energy Stone, Anion, Far infrared, Germanium Powder in each link of bracelets, that makes our ceramic bracelets good for health as well as beauty.

On the outside of each ceramic link, we usually set a CZ stone, or inlay carbon fiber, dragon steel, shell, opal, wood etc. To make bracelets look unique and beautiful.
