Black Zirconium is a type of metal that has been exposed to high heat to create its unique appearance. ... Zirconium is lightweight on the finger and won't cause any type of allergic reaction like nickel could. The durability is very similar to that of Titanium and it makes an excellent choice for a men's wedding ring.

When we make the black zirconium ring, the color was not made by high heat but black plating, because the MOQ of high heat is really high, so we make black plating on zirconium rings according to customer requirement.

We are an OEM factory. All details can modify according to customer's request.

We can make different finishes on black zirconium rings, such as sandblasted black zirconium ring, cross satin brush black zirconium ring, high polished black zirconium ring, matte finish black zirconium ring, satin brush black zirconium ring, faceted black zirconium ring, hammered black zirconium ring, wire brushed black zirconium ring etc.

Available Surface Finish

We can inlay different materials on black zirconium rings, such as black zirconium rings with carbon fiber inlay, black zirconium ring with dragon steel inlay, black zirconium ring with resin inlay, black zirconium ring with meteorite inlay, black zirconium ring with antler inlay, [black zirconium with wood](#), black zirconium ring with opal, black zirconium ring with shell, black zirconium ring with turquoise inlay, black zirconium ring with chip inlay, black zirconium ring with gear wheel inlay etc.

Available Inlay Material

Packaging & Delivery

With ready stock and efficient logistics, we ensure your orders are delivered promptly, supporting your business's responsiveness to market demands.

Enhance your product lineup with our exquisite men's black zirconium wedding bands. Contact ql-jewelry today for customizable options, no minimum order requirements, and swift delivery to meet your business needs.

About us

Trusted Jewelry Manufacturing Partner Since 2002

Established in Chang'an, Dongguan, QL Jewelry has been a reliable manufacturer and exporter of fine jewelry since 2002. Specializing in tungsten carbide, ceramic, stainless steel, titanium, black zirconium, Damascus steel, and Timascus jewelry, we integrate advanced materials with precise craftsmanship to support global OEM/ODM partners. With a factory-owned model and full in-house production, we ensure cost efficiency and consistent quality for every order.

Precision Production with Certified Quality Control

Our 1,300-square-meter facility houses 80 skilled technicians who follow strict quality control protocols from raw material selection to final inspection. With mature R&D and design capabilities, QL Jewelry develops trend-responsive, technically refined products while maintaining a commitment to "zero complaints and zero returns." We are equipped to support brand-level quality expectations with customized solutions and consistent lead times.

Scalable Supply with Fast, Flexible Delivery

With over 100,000 units of bestselling designs in stock and a strong production cycle, we accommodate both small and bulk orders with ease. Our lean inventory management enables 3-day shipping for core styles and supports low MOQ requirements. Our sales and support teams operate 24/7 to ensure responsive communication, from quotation through to post-delivery service.

Global Service with Commitment to Growth

Trusted by clients across Europe, North America, and Asia, QL Jewelry's international service network is built on long-term partnerships, technical transparency, and client success. While developing sustainable practices, we prioritize reliable logistics, multilingual support, and local compliance knowledge. Whether launching a new brand or scaling an existing line, we're ready to be your long-term production partner.

FAQ

1. Who are we?

QL Jewelry is a manufacturer and trader established in 2002, specializing in the research, design, development, and production of various types of jewelry, including tungsten carbide, high-tech ceramic, stainless steel, and more.

2. How can we guarantee quality?

We produce all products in our own factory, employ highly skilled workers, and implement strict quality control processes aiming for zero complaints and zero returns.

3. What can you buy from us?

Our product offerings include tungsten carbide rings, ceramic rings, stainless steel jewelry, titanium

pieces, black zirconium items, Damascus steel jewelry, Timascus rings, and more.

4. Why should you buy from us, not from other suppliers?

We offer favorable pricing through in-house production, maintain a large inventory for quick delivery, provide expert OEM & ODM services, and have a professional sales team available 24/7.

5. What services can we provide?

Our services encompass OEM & ODM customization, professional design and R&D, timely delivery, and comprehensive after-sales support.
